Group dental insurance

Avoiding the cost of poor oral health

Poor dental care has a damaging effect on workplaces across the UK.

NHS dental provision is increasingly rare. And cost is a major barrier to seeking private dental health care. Bupa reports that 37% of UK workers are taking time off due to dental problems.

A group dental insurance policy is designed to help employees meet the costs of routine check-ups and other dental treatments, carried out privately or by the NHS. Following dental treatment, employees simply claim back costs. Employers can choose to extend the cover to employees' family members.

How First Actuarial helps with group dental insurance

Our employee benefit specialists are here to guide you through the selection process and beyond.

As your trusted partner, we'll use our market knowledge to design benefits around your business needs and negotiate the best terms available.

We'll help you remain compliant with legislation at all times. And we'll monitor your cover as business needs change.

Duty of care

Make dental care affordable and encourage employees to look after their teeth. Timely check-ups and treatment will deliver fast pain relief and can help identify other health issues at an early stage.

Reduced absence and presenteeism

Free your employees up from the misery of toothache. Positive health outcomes can lead to lower staff absence and higher productivity.

Recruitment and retention

Build workplace loyalty. With reduced NHS availability and increasing private dental costs, it's becoming one of the most popular employee benefits.

How does it work?

Step 1 – We'll match your needs with suitable policies

What direction are you taking your employee health and wellbeing strategy? We'll sit down with you and listen. We'll use our specialist knowledge to explain the dental insurance benefits available and agree requirements. We'll then go out to the market and match your needs with suitable policies.

Step 2 – We'll guide you through the most suitable policies

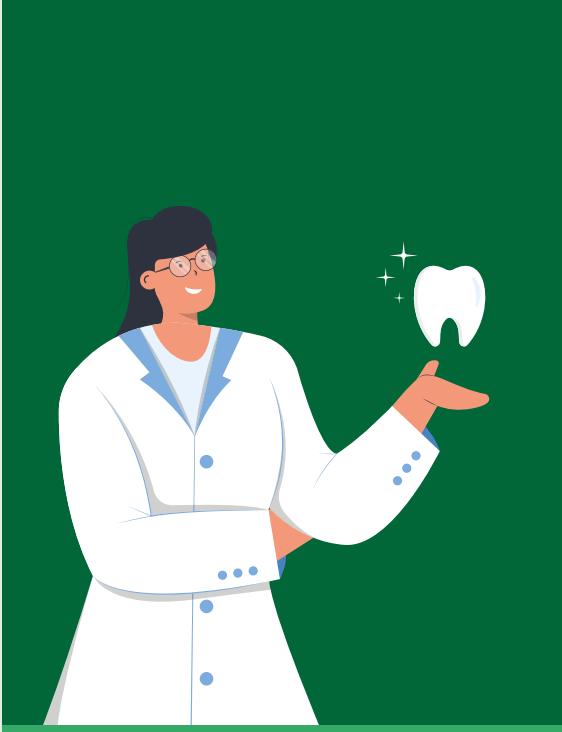

We'll take you through the policies that we think are a good fit, and we'll make recommendations. Dental insurance policies offer a range of services. We can tailor provision to your employee profile and business needs.

Step 3 – We'll help you set up your group policy

We'll work together to set up your policy. Once it's up and running, employees will deal directly with their own dentist when arranging and paying for treatment. They'll then claim back the cost of treatment, up to a defined financial limit, from the insurance provider.

Step 4 – We'll support you all year round

We'll provide all the support you need throughout the year. We can manage your annual renewals and negotiate new competitive terms. And we'll continue to listen, so your policy remains fit for purpose as your business changes and grows.

Get in touch

Get in touch today to discuss how we can help you with group dental insurance. Together, our specialists offer seven decades' experience of employee benefits.
