

first actuarial

Join First Actuarial's actuarial graduate scheme

If you're good with numbers and keen to make a positive difference to the world, step into a rewarding and meaningful career with First Actuarial.

We put people first. We're known in the financial services sector for our integrity. Our pioneering work is set to transform the lives of millions of younger people with a new type of pension.

As an actuarial graduate trainee, you'll be welcomed into a stimulating work environment, working with professionals from diverse backgrounds in friendly and close-knit teams.

Our values

- **Value**
- **Opportunity**
- **Improvement**
- **Courage**
- **Enjoyment**

Why work for First Actuarial?

The pull of big brands and small start-ups can prove tempting for students and graduates. But a medium-sized firm like First Actuarial offers early exposure to industry experts and experiences that will accelerate your career.

We apply fresh thinking to pensions consultancy and encourage everyone to bring their true selves to work. Our culture balances professionalism with a relaxed look and feel.

What do actuaries do?

Actuaries use numeracy skills to help trustees and employers manage their pension schemes. We grapple with huge uncertainties like inflation, and manage the risks that can damage people's lives.

What will I be doing on a day-to-day basis?

Although it sounds like a cliché, no two days will be the same. As an actuarial student, you'll be working with a range of clients – both for-profit and not-for-profit – on actuarial calculations, models and client communications.

How will First Actuarial support my career progression?

As a new graduate, you'll join our training programme to build up essential skills and knowledge. We provide an excellent study support package – including IFoA membership fees, study materials and study leave – to help you qualify as an actuary: https://actuaries.org.uk/qualify/become-an-actuary/route-to-becoming-an-actuary.

Joining First Actuarial as an actuarial graduate, I've had the chance to develop a broad set of technical and professional skills while working on a diverse range of projects across different practice areas. The level of training I've received has been fantastic and the team have been welcoming and supportive since day one. I've had a great experience at First Actuarial and would confidently recommend it for anyone with an interest in the pensions field.

Jacob Binns
Actuarial Trainee, Leeds

Apply today

If you're a numerate problem-solver who works well in a team and can handle a bit of pressure from time to time, we'd love to hear from you.

Apply for a place on our graduate scheme today. Choose between office locations in Basingstoke, Birmingham, Leeds, London, Manchester, Peterborough and Tonbridge – working on a hybrid basis after an initial period.

Visit our career portal for all our graduate opportunities.
